SUMMARY

Driven professional with extensive software development experience. Formally educated in data science/machine learning, I seek to contribute to useful cutting-edge technology.

SKILLS

Languages: Python, Java, C++, JavaScript, R, Swift, SQL, Microsoft SQL Server, Git, Bash, zsh, Next.js, Google Cloud, Amazon Web Services, Jira, Flutter, Figma, LaTeX, Microsoft Excel

EXPERIENCE

Coldwell Banker Richard Ellis (CBRE) May 2023 - Present
Application Developer Chicago, IL

- Engineered and optimized Java APIs and JavaScript front ends for customized facilities/asset management solutions, significantly enhancing system performance
- Advanced system architecture and DevOps practices, proficiently utilizing Confluence and GitHub for streamlined documentation and integrating new APIs / AI tools.
- Wrote and edited complex SQL queries to generate advanced reports for business analytics

Segalo Media May 2022 - August 2022
Marketing / Analytics Intern Chicago, IL

- Implemented private Discord server for community crypto ICO and IDO trading analysis. Acted as the moderator and grew the server through shilling/guerilla marketing to 10k members
- Wrote webscraping program to compile relevant news and price moving statistics to conduct my own fundamental/technical analysis on various coins
- Predicted ~\$100k of active alt-coin price movement in 3 months before I decided to start trading on my own

Future Founders, Inc. June 2020 - August 2020
Entrepreneur Intern Chicago, IL

- Fostered my entrepreneurial/leadership skills by participating in an accelerated thinktank competition for emerging technological entrepreneurs in Chicago
- Collaborated with a team to create the software architecture and go-to-market strategy for a sustainable food sourcing software platform aimed to tackle food insecurity in the city
- Led our teams pitch to a board of mock investors after only a short month of brainstorming /development. We ultimately ended up getting second place out of around 15 teams of students

INVOLVEMENT

Shopify June 2019 - December 2022
Online Retailer Chicago, IL

- Established manufacturing relationships with overseas suppliers to launch multiple online product lines
- Constructed a generative AI workflow that I used to build tools for scraping the web to find new product niches, to create and publish consistent content for each product line, and to analyze customer data
- Launched ~15 product lines over 3 years to obtain decent profit that i've continued to invest/save over the years

Crypto Currency and Decentralized Finance Club December 2021 - November 2022
Co Founder & President Champaign, IL

- Co founded organization during NFT/Crypto bull run with a focus on trading
- Reimagined the innovative potential of the group after market consolidation and orchestrated expansion into diverse multi-faceted business goals aimed towards generating wealth and freedom
- Utilized know-how, brainstorming, and networking to lead a diverse team pursuing various entrepreneurial ventures to construct useful technological solutions across industries

EDUCATION

University of Illinois at Urbana-Champaign May 2024
Bachelor of Arts in Economics
